### Education

Dr. GRD College of Arts and Science, TamilNadu, India. 2022-2025

B.Sc in Computer Science

CGPA-6.8/10

### Projects

#### Brownie Brothers — Bakery Brand Website (UI/UX Designer & Frontend Developer)

- Designed end-to-end UI in Figma — covering user flows, wireframes, and high-fidelity prototypes with a brand-consistent design system.
- Developed a pixel-perfect, mobile-first responsive website using semantic HTML5 and CSS3 with cross-browser compatibility.
- Applied WCAG accessibility standards, visual hierarchy, and optimized CTA placement to enhance user engagement.

#### Runzora Tech — Digital Agency Website (UI/UX Designer)

- Defined information architecture and user flows; designed low-to-high fidelity Figma prototypes aligned with the agency's brand identity.
- Built a scalable UI component library covering typography, color tokens, spacing, and interactive states for developer handoff.
- Applied responsive design principles and accessibility best practices across all screens.

### Certifications

- HTML5, CSS3, and JavaScript for Beginners – Udemy (2025)
- Full-Stack Development for Beginner: React, Next.js, Node.js – Udemy (2025)
- Complete Figma Course: Web & Mobile Projects from Scratch – Udemy (2025)
- Canva for Social Media Graphic Design and Video Editing – Udemy (2025)
